Participating industry practitioners, researchers or academicians can draft a one-page synopsis on an A4 paper based on the main topics or the sub-topics listed or any other highlighted issues they might encounter or query.

1. Nature of possible or planned collaboration area/topic:
 - a. Introduction
 - b. Problem domain
 - c. Proposed solution/ research idea
 - d. Collaboration opportunities
 - e. etc. (introductory level)

2. Issues in collaborative projects:
 - a. Distribution of activities
 - b. Time/schedule mapping
 - c. Roles and responsibilities
 - d. Types of collaboration
 - e. etc.

3. Sponsorship/Grant applications:
 - a. Requirements from sponsoring bodies/agencies
 - b. Application proposals
 - c. Budgeting
 - d. etc.

4. Property rights application and ownership

5. Any other highlighted issues

E-mail the synopsis to Dr Rodziah Atan: rodziah@fsktm.upm.edu.my latest by 16 November 2009 for a compilation.

The synopsis will be uploaded via the website and to be displayed during RIA session and APSEC 2009. All participating individuals are encouraged to join the session for a discussion or a networking with potential partners. Participants with tools may also have a demonstration during the session. Please register and pay the additional fee RM150 on top of conference fee to join this session. The fee also enables participants to join other co-located workshops or the tutorial.
