

16th Asia-Pacific Software Engineering Conference (APSEC 2009)

Co-located Event:
Software Engineering Postgraduate Workshop (SEPoW 2009)
APSEC 2009 Workshop Day
Date: 30 November 2009
Venue: Eureka Building, Universiti Sains Malaysia, Penang

How to get to Eureka Building (E46: opposite USM mosque at Sg. Dua entrance)

Universiti Sains Malaysia (USM) is located in Penang Island. It has four entrances.

- If you drive from the main land, after the bridge follow the USM/Gelugor signboard until you reach the entrance at Batu Uban on your left. Once you enter the gate, go straight until you see the 3-storey Eureka Building on the left. Turn left immediately at the junction and you reach the location.
- If you take a cab, just mention USM and tell the driver that the building you are going is opposite USM mosque. The driver will know which entrance is the best to choose.
